Statistical activities conducted by the Singapore Department of Statistics are governed by the provisions of the Statistics Act (Cap. 317). The Act guarantees the confidentiality of information collected from individuals and companies. It spells out the legislative authority and responsibility of the Chief Statistician. The Act is available in the Department's Website ([www.singstat.gov.sg](http://www.singstat.gov.sg)).

## PREFACE

The Census of Population 2010 was the fifth census carried out in Singapore since Independence and the fourteenth in the series of census taking in Singapore. The census is the most comprehensive source of information on population and households. It provides benchmark data for all demographic, economic and social statistics.

The Census 2010 adopted a register-based approach, similar to the Census of Population 2000. Basic population count and characteristics were compiled from administrative sources. More detailed information on demographic, education, economic, transport, household and housing characteristics were obtained from a sample enumeration of about 200,000 households.

As in the conduct of the Census 2000, a tri-modal collection strategy comprising Internet, Computer-Assisted Telephone Interviewing (CATI) and face-to-face interviews was adopted to facilitate data collection for the households in the census sample. The Census 2010 went paperless during the face-to-face interviews, with the use of Ultra-Mobile Personal Computers (UMPCs) to assist data collection. This data collection methodology brought about savings in manpower, data security in the field, as well as improvements in quality and timeliness of data.

The Census of Population 2010 Statistical Release 3 – Geographic Distribution and Transport is the third and final statistical release of a series of statistical publications on detailed census results. This release provides findings on the key trends and changes relating to the geographic distribution and transport characteristics of the Singapore resident population. The report includes detailed statistical tables to enable more comprehensive study by users as well as a glossary of census concepts and definitions.

I would like to thank all who have, in one way or another, contributed to the success of Census 2010. My deep appreciation is extended to all participating households who had given their full support to the Census 2010. The contributions of many government ministries and statutory boards, which provided pertinent information for the Census 2010, are gratefully acknowledged.

Wong Wee Kim  
Chief Statistician  
Singapore

February 2011

# Our Vision

**A National Statistical System of Quality, Integrity and Expertise.**

# Our Mission

**We Provide Reliable, Relevant and Timely Statistics  
to Support Singapore's Social and Economic Development.**

# Our Guiding Principles

<b>Professionalism &amp; Expertise</b>	<i>We adhere to professional ethics and proficiently produce quality statistics that comply with international concepts and best practices.</i>
<b>Relevance</b>	<i>We constantly innovate our processes and produce statistics that meet users' needs.</i>
<b>Accessibility</b>	<i>We make our statistics readily available.</i>
<b>Confidentiality</b>	<i>We protect the confidentiality of information provided to us.</i>
<b>Timeliness &amp; Reliability</b>	<i>We produce statistics that users can depend on and disseminate them at the earliest possible date while maintaining data quality.</i>
<b>Cost Effectiveness</b>	<i>We use resources effectively, minimising respondent burden and leveraging on administrative data.</i>

# CONTENTS

<b>Preface</b>	i
<b>Key Indicators of the Resident Population and Resident Households</b>	viii
<b>Introduction</b>	xiii
<b>Key Findings</b>	
Chapter 1 Geographic Distribution	3
Chapter 2 Transport Characteristics	5
<b>Statistical Tables</b>	23
<b>Glossary of Terms and Definitions</b>	181
<b>Appendix A - Sample Design and Sampling Variability</b>	193

# LIST OF STATISTICAL TABLES

	<i>Page</i>
<b>Register-based Census</b>	
<b>Basic Demographic Characteristics</b>	
1 Resident Population by Planning Area/Subzone and Age Group	23
2 Resident Population by Planning Area/Subzone, Ethnic Group and Sex	33
3 Resident Population by Planning Area/Subzone and Type of Dwelling	43
<b>Sample Enumeration</b>	
<b>Geographic Distribution</b>	
4 Resident Population Aged 5 Years and Over by Planning Area and Language Most Frequently Spoken at Home	53
5 Resident Students Aged 5 Years and Over by Planning Area and Level of Education Attending	55
6 Resident Students Aged 5 Years and Over by Planning Area and Usual Mode of Transport to School	57
7 Resident Students Aged 5 Years and Over by Planning Area and Travelling Time to School	59
8 Resident Population Aged 15 Years and Over by Planning Area, Marital Status and Sex	61
9 Resident Population Aged 15 Years and Over by Planning Area, Economic Status and Sex	63
10 Resident Population Aged 15 Years and Over by Planning Area and Language Literate In	65
11 Resident Population Aged 15 Years and Over by Planning Area and Religion	69
12 Resident Non-Students Aged 15 Years and Over by Planning Area and Highest Qualification Attained	71
13 Resident Working Persons Aged 15 Years and Over by Planning Area and Industry	73
14 Resident Working Persons Aged 15 Years and Over by Planning Area and Occupation	77
15 Resident Working Persons Aged 15 Years and Over by Planning Area and Gross Monthly Income from Work	79

*Note : Figures in tables may not add up to the totals due to rounding.*

## LIST OF STATISTICAL TABLES (*continued*)

	<i>Page</i>
16 Resident Working Persons Aged 15 Years and Over by Planning Area and Usual Mode of Transport to Work	81
17 Resident Working Persons Aged 15 Years and Over by Planning Area and Travelling Time to Work	83
18 Resident Households by Planning Area and Type of Dwelling	85
19 Resident Households by Planning Area and Tenancy	87
20 Resident Households by Planning Area and Household Structure	89
21 Resident Households by Planning Area and Household Size	91
22 Resident Households by Planning Area and Monthly Household Income from Work	93

### **Transport**

23 Resident Students Aged 5 Years and Over by Usual Mode of Transport to School, Age Group and Sex	95
24 Resident Students Aged 5 Years and Over by Usual Mode of Transport to School, Level of Education Attending and Sex	96
25 Resident Students Aged 5 Years and Over by Usual Mode of Transport to School, Monthly Household Income from Work and Sex	98
26 Resident Students Aged 5 Years and Over by Usual Mode of Transport to School, Type of Dwelling and Sex	102
27 Resident Students Aged 5 Years and Over by Usual Mode of Transport to School, Travelling Time to School and Sex	105
28 Resident Students Aged 5 Years and Over by Travelling Time to School, Level of Education Attending and Sex	107
29 Resident Working Persons Aged 15 Years and Over by Usual Mode of Transport to Work, Age Group and Sex	109
30 Resident Working Persons Aged 15 Years and Over by Usual Mode of Transport to Work, Highest Qualification Attained and Sex	110
31 Resident Working Persons Aged 15 Years and Over by Usual Mode of Transport to Work, Employment Status and Sex	112
32 Resident Working Persons Aged 15 Years and Over by Usual Mode of Transport to Work, Industry and Sex	113
33 Resident Working Persons Aged 15 Years and Over by Usual Mode of Transport to Work, Occupation and Sex	119
34 Resident Working Persons Aged 15 Years and Over by Usual Mode of Transport to Work, Gross Monthly Income from Work and Sex	122

## **LIST OF STATISTICAL TABLES (continued)**

		<i>Page</i>
35	Resident Working Persons Aged 15 Years and Over by Usual Mode of Transport to Work, Monthly Household Income from Work and Sex	125
36	Resident Working Persons Aged 15 Years and Over by Usual Mode of Transport to Work, Type of Dwelling and Sex	129
37	Resident Working Persons Aged 15 Years and Over by Usual Mode of Transport to Work, Travelling Time to Work and Sex	132
38	Resident Working Persons Aged 15 Years and Over by Industry, Travelling Time to Work and Sex	134
39	Resident Working Persons Aged 15 Years and Over by Occupation, Travelling Time to Work and Sex	136

### **Economic Characteristics**

40	Resident Economically Active Persons Aged 15 Years and Over by Age Group, Marital Status, Sex and Ethnic Group	138
41	Resident Working Persons Aged 15 Years and Over by Age Group, Usual Hours Worked and Sex	143
42	Resident Working Persons Aged 15 Years and Over by Usual Hours Worked, Marital Status and Sex	145
43	Resident Working Persons Aged 15 Years and Over by Highest Qualification Attained, Usual Hours Worked and Sex	146
44	Resident Working Persons Aged 15 Years and Over by Usual Hours Worked, Employment Status and Sex	148
45	Resident Working Persons Aged 15 Years and Over by Industry, Usual Hours Worked and Sex	149
46	Resident Working Persons Aged 15 Years and Over by Gross Monthly Income from Work, Marital Status and Sex	151
47	Resident Working Persons Aged 15 Years and Over by Gross Monthly Income from Work, Usual Hours Worked and Sex	152
48	Resident Working Persons Aged 15 Years and Over by Age Group, Marital Status, Sex and Ethnic Group	154
49	Resident Working Persons Aged 15 Years and Over by Highest Qualification Attained, Ethnic Group and Sex	159
50	Resident Working Persons Aged 15 Years and Over by Ethnic Group, Employment Status and Sex	160
51	Resident Working Persons Aged 15 Years and Over by Industry, Ethnic Group and Sex	161
52	Resident Working Persons Aged 15 Years and Over by Occupation, Ethnic Group and Sex	162

## **LIST OF STATISTICAL TABLES (*continued*)**

	<i>Page</i>
53 Resident Working Persons Aged 15 Years and Over by Usual Hours Worked, Ethnic Group and Sex	163
54 Resident Working Persons Aged 15 Years and Over by Gross Monthly Income from Work, Ethnic Group and Sex	164
55 Resident Unemployed Persons Aged 15 Years and Over by Age Group, Action Taken to Look for Work and Sex	165
56 Resident Unemployed Persons Aged 15 Years and Over by Highest Qualification Attained, Action Taken to Look for Work and Sex	166
57 Resident Unemployed Persons Aged 15 Years and Over by Age Group, Marital Status, Sex and Ethnic Group	167
58 Resident Economically Inactive Persons Aged 15 Years and Over by Highest Qualification Attained, Economic Activity Status and Sex	172
59 Resident Economically Inactive Persons Aged 15 Years and Over by Marital Status, Economic Activity Status and Sex	173
60 Resident Economically Inactive Persons Aged 15 Years and Over by Age Group, Marital Status, Sex and Ethnic Group	174

# Introduction

---

# **INTRODUCTION**

The Census of Population, Singapore's largest national statistical exercise, is conducted once in ten years by the Singapore Department of Statistics. The Census of Population 2010 was the fifth census after Singapore's Independence, and the fourteenth in the series of census taking in Singapore.

The Census of Population 2010 Statistical Release 3 – Geographic Distribution and Transport is the third and final statistical release of a series of statistical publications on detailed census results. This release provides findings on the key trends and changes relating to the geographic distribution and transport characteristics of the Singapore resident population. The report includes detailed statistical tables to enable more comprehensive study by users as well as a glossary of census concepts and definitions.

## **Census of Population – Concept and Coverage**

The Census of Population 2010 adopted the de jure concept for Singapore's population estimates based on a person's place of usual residence. Under the de jure concept of "usual residence", Singapore residents (citizens and permanent residents) with local addresses and who were not away from Singapore for a continuous period of 12 months or longer were included in the total population count. The non-resident population comprising foreigners who were working, studying or living in Singapore but not granted permanent residence were also included in the total population. The transient population such as tourists and short-term visitors was excluded.

## **Register-based Census of Population**

In the register-based Census, the basic population statistics were compiled using administrative records from multiple sources. The merged administrative records provided the basic population count and characteristics such as age, sex, ethnic group, place of birth, type of dwelling and geographic distribution in Singapore.

## **Sample Enumeration**

To collect additional information not available from administrative sources, some 200,000 households were selected to participate in the sample enumeration. Building on the success and lessons learned from the Census of Population 2000, a trimodal data collection strategy comprising Internet enumeration, Computer-Assisted Telephone Interviewing (CATI) and face-to-face interviews was adopted to facilitate data collection for the households in the sample.

The option of Internet enumeration was made available to all households selected for the census sample enumeration. Available 24 hours a day, 7 days a week, Internet enumeration provided respondents with the flexibility of responding at any

time they desired. It allowed respondents to provide their survey returns directly to the system without having to go through a third party, i.e. the interviewer.

Respondents, who were not able to complete their returns via the Internet, had the option to provide their returns over the phone with the assistance of telephone interviewers. Households that did not complete their returns via the Internet by a stipulated date were also contacted by telephone interviewers for telephone interviews. The CATI system allowed the telephone interviewer to perform multiple tasks of interviewing, data entry and simple coding simultaneously.

Households were scheduled for face-to-face interviews if they did not respond via Internet and could not be contacted by CATI after several attempts. Those who preferred to provide their information to the trained interviewers could also choose to do so. In the event where the field interviewers failed to contact the respondents in these households, they left appointment slips behind for the respondents to contact the interviewers to schedule a convenient time for an interview.

Unlike the traditional paper and pen approach, the Ultra-Mobile Personal Computer (UMPC) was adopted for field enumeration in Census of Population 2010. The use of technology provided logistic convenience, eliminating the need for printing and transportation of hardcopy survey forms. Automatic branching of questions with consistency checks was also introduced to reduce back-end processing efforts with electronically coded data captured in the field.

## **Data Processing and Reports**

Census returns submitted via the Internet, CATI and field enumeration were captured electronically and updated into the Census database directly without the need for separate data entry back in office. Trained coders performed online computer-assisted coding of data on occupation, industry and education while editors checked on the consistency and completeness of survey returns. The final processing of the census data involved the editing and verification of records to ensure consistency and good quality of the data.

After stringent quality checks and the completion of data processing, multiple aggregated cross-tabulations were generated for analysis of data trends. Statistical reports on specific topics were prepared for public release.

# **Key Findings**

---

# 1 GEOGRAPHIC DISTRIBUTION

## Population Size and Density

With a total population of 5.08 million in 2010, there was an average of 7,126 persons per square kilometer in Singapore (Table 1). This was higher than the 7,022 persons per square kilometer in 2009.

**Table 1 Population Size and Density**

Year	Total Population* ('000)	Resident Population ('000)	Land Area (sq km)	Population Density (per sq km)
1980	2,413.9	2,282.1	617.8	3,907
1990	3,047.1	2,735.9	633.0	4,814
2000	4,027.9	3,273.4	682.7	5,900
2005	4,265.8	3,467.8	697.9	6,112
2006	4,401.4	3,525.9	699.5	6,292
2007	4,588.6	3,583.1	705.1	6,508
2008	4,839.4	3,642.7	710.2	6,814
2009	4,987.6	3,733.9	710.3	7,022
2010	5,076.7	3,771.7	712.4	7,126

\* Total population comprises Singapore residents and non-residents. Resident population comprises Singapore citizens and permanent residents.

## Age Profile

In 2010, the proportion of elderly aged 65 years and over was highest among Singapore residents staying in Outram, Downtown Core, Rochor, Queenstown and Bukit Merah planning areas<sup>1</sup> (15 - 19 per cent) (Map 1). The proportion of elderly was lowest among Singapore residents staying in Punggol (4.8 per cent).

## Highest Qualification Attained

In 2010, the proportion with at least post-secondary qualification was highest among Singapore residents staying in the Singapore River planning area (86 per cent), Tanglin (85 per cent) and Newton (84 per cent) (Map 2). The corresponding proportion was lower among Singapore residents staying in older

<sup>1</sup> Planning areas refer to areas demarcated in the Urban Redevelopment Authority's Master Plan 2008.

estates such as Rochor (41 per cent), Bukit Merah (41 per cent) and Outram (30 per cent).

### **Language Most Frequently Spoken at Home**

The proportion who spoke English most frequently at home was highest among Singapore residents staying in Tanglin, Singapore River, Bukit Timah, Newton and River Valley planning areas in 2010 (67 - 75 per cent). In contrast, the proportion who spoke English most frequently at home was lowest among Singapore residents staying in Woodlands (23 per cent), Jurong West (20 per cent) and Outram (16 per cent) (Map 3).

## 2 TRANSPORT CHARACTERISTICS

### Usual Mode of Transport to Work

In tandem with the extension of the MRT network, the proportion of resident working persons who commuted to work by MRT only or MRT combined with another mode increased from 24 per cent in 2000 to 31 per cent in 2010 (Chart 1). Those who used the public bus as the only mode of transport to work declined from 25 per cent to 19 per cent over the same period.

The proportion of resident working persons who used the car as the only mode of transport to work increased slightly from 24 per cent in 2000 to 25 per cent in 2010.

**Chart 1 Resident Working Persons Aged 15 Years and Over by Mode of Transport to Work**

## **Mode of Transport to Work by Housing Type**

About 62 - 69 per cent of resident working persons staying in HDB 1 - 3 room flats commuted to work by public bus only, MRT only or MRT combined with another mode in 2010 (Table 1). The corresponding proportion was 48 - 56 per cent among those in HDB 4-room or larger flats.

In contrast, 51 per cent of resident working persons staying in condominiums and private flats and 60 per cent of resident working persons staying in landed properties relied on cars as their only mode of transport to work in 2010.

## **Mode of Transport to Work by Planning Area**

In 2010, the proportion who commuted to work by MRT only or MRT combined with another mode was highest among resident working persons staying in Sembawang (49 per cent), followed by Yishun, Woodlands and Choa Chu Kang (40 - 42 per cent) (Map 4). The proportion who used the public bus as the only mode of transport to work was highest among those staying in Bukit Merah (31 per cent), followed by Marine Parade (29 per cent) and Bukit Panjang (26 per cent) (Map 5).

In contrast, the proportion who commuted to work by car only was highest among resident working persons staying in Tanglin (62 per cent), Bukit Timah (62 per cent), Mandai and Newton (50 - 53 per cent) (Map 6).

## Travelling Time to Work

In 2010, the median travelling time to work was 30 minutes for resident working persons commuting to work by car only (Table 2). The median travelling time to work was also 30 minutes for those who commuted to work by public bus only. However, while 25 per cent of those who commuted to work by public bus only had travelling time exceeding 45 minutes, a smaller 7.2 per cent of those who commuted to work by car only had travelling time exceeding 45 minutes.

**Table 2 Resident Working Persons Aged 15 Years and Over  
by Travelling Time and Mode of Transport to Work, 2010**

Travelling Time (Minutes)	Public Bus Only	MRT			Car Only	Private Chartered Bus/Van Only	Motorcycle/ Scooter Only	Per Cent
		MRT Only	MRT & Public Bus Only	MRT & Another Mode

46 - 60	19.5	24.5	34.9	25.9	6.2	13.9	4.3	
More than 60	5.9	5.5	17.0	10.4	1.0	3.4	0.6	
Average (Minutes)	39	42	53	46	28	34	27	
Median (Minutes)	30	40	50	45	30	30	30	

## Travelling Time to Work by Planning Area

Resident working persons staying nearer to the city generally had shorter travelling time to work. In 2010, the median travelling time to work was less than 25 minutes among resident working persons staying at the Downtown Core, Outram, Newton, River Valley, Tanglin, Changi and Singapore River planning areas (Map 7).

In contrast, the median travelling time to work was longest at 40 minutes for resident working persons staying in Choa Chu Kang, Bukit Panjang, Woodlands, Sembawang, Yishun, Sengkang and Punggol.

## **Usual Mode of Transport to School**

Reflecting the close proximity of the schools to their homes, 46 per cent of the pre-primary and primary school students walked to school in 2010, unchanged from 2000 (Table 3). The proportion of pre-primary and primary school students who took the school bus to school dropped from 25 per cent in 2000 to 20 per cent in 2010. There was a corresponding increase in the proportion of pre-primary and primary school students who travelled to school by car only from 8.7 per cent in 2000 to 14 per cent in 2010.

MRT emerged as an important mode of transport to school for those attending higher education. Between 2000 and 2010, the proportion who commuted to school by MRT only or MRT combined with another mode increased from 33 per cent to 54 per cent for polytechnic students, and from 41 per cent to 56 per cent for university students.

## Travelling Time to School

The median travelling time to school was 45 minutes for polytechnic students and 50 minutes for university students in 2010 (Table 4). In comparison, the median travelling time was shorter for pre-primary and primary students (12 minutes) and secondary school students (20 minutes), reflecting the closer proximity of primary and secondary schools to the students' homes.

A relatively small proportion of pre-primary and primary students (3.0 per cent) and secondary school students (9.9 per cent) had travelling time to school exceeding 45 minutes in 2010. In comparison, 39 per cent of polytechnic students and 52 per cent of university students had travelling time to school exceeding 45 minutes in 2010.

## Travelling Time to School by Planning Area

Resident students attending primary or pre-primary schools staying in Outram had the longest median travelling time to school at 20 minutes. The median travelling time to school was less than 20 minutes for those staying at other planning areas (Map 8).

# **Glossary of Terms and Definitions**

---

# **GLOSSARY OF TERMS AND DEFINITIONS**

## **DEMOGRAPHIC AND SOCIAL CHARACTERISTICS**

### **Age**

Age refers to the number of completed years between a person's date of birth and the reference date of 30 June 2010.

### **Ethnic/ Dialect Group**

Ethnic group refers to a person's race. It is as declared by the person. The population is classified into the following four categories:

<i>Chinese</i>	This refers to persons of Chinese origin such as Hokkiens, Teochews, Cantonese, Hakkas, Hainanese, Hockchias, Foochows, Henghuas, Shanghainese, etc.
<i>Malays</i>	This refers to persons of Malay or Indonesian origin, such as Javanese, Boyanese, Bugis, etc.
<i>Indians</i>	This refers to persons of Indian, Pakistani, Bangladeshi or Sri Lankan origin such as Tamils, Malayalis, Punjabis, Bengalis, Singhalese, etc.
<i>Other Ethnic Groups</i>	This comprises all persons other than Chinese, Malays and Indians. They include Eurasians, Europeans, Arabs, Japanese, etc.

### **Residential Status**

Singapore citizens and permanent residents are classified as Singapore residents or the resident population. Singapore permanent residents refer to non-citizens who have been granted permanent residence in Singapore. The non-resident population comprised foreigners who were working, studying or living in Singapore but not granted permanent residence, excluding tourists and short-term visitors.

### **Place of Birth**

Place of birth refers to the geographical area in which the person was born.

### **Marital Status**

Marital status refers to a person's conjugal status in relation to the marriage laws or customs in Singapore.

<i>Single</i>	This refers to persons who have never been married.
<i>Married</i>	This refers to persons who are legally married or married according to customary rites.
<i>Widowed</i>	This refers to persons whose spouses are deceased and have not remarried.
<i>Divorced/ Separated</i>	This refers to persons whose marriages have been legally dissolved, or persons who have been legally separated or estranged from their spouses and who have not remarried.

### **Ever-Married Females**

Ever-married females refer to females who have been married before and are currently married, widowed, or divorced/ separated.

### **Number of Children Born**

Number of children born refers to all the live-born children each resident woman aged 15 years and over has ever given birth to. It includes those children who are currently staying with her, those who have set up their own homes and those who are no longer living.

### **Religion**

Religion refers to the religious faith or spiritual belief of a person, regardless of whether or not he regularly attends religious ceremonies in a temple, mosque, church or other religious building. He may or may not practise his faith or belief. It is as declared by the person.

## **EDUCATION, LITERACY AND LANGUAGE**

### **Literacy**

This refers to a person's ability to read with understanding, e.g. a newspaper, in the language(s) specified. It is as declared by the person.

### **Language Most Frequently Spoken at Home**

Language most frequently spoken at home refers to the language or dialect that a person uses most frequently at home when speaking to household members.

### **Level of Education Attending**

Level of education attending refers to the grade or standard of formal education which a full-time student is attending. The Singapore Standard Educational Classification 2010 is used to classify students by level of education attending. Students aged 5 years and over are classified into the following six main categories:

<i>Pre-Primary</i>	This refers to students attending kindergartens or pre-primary classes.
<i>Primary</i>	This refers to students attending Primary 1 to 6 and special classes for the educationally sub-normal.
<i>Secondary</i>	This refers to students attending Secondary 1 to 5 or courses of secondary level offered in the vocational, technical and commercial education institutions, e.g. Institute of Technical Education (ITE) Skills Certificate course.
<i>Post-Secondary (Non-Tertiary)</i>	This refers to students attending Pre-University classes and junior colleges or other courses at post-secondary level, e.g. National ITE Certificate (Nitec), Higher Nitec and Master Nitec.
<i>Polytechnic</i>	This refers to students attending polytechnic diploma or polytechnic post/ advanced/ specialist/ management/ graduate diploma courses offered by the local polytechnics such as the Singapore Polytechnic, Ngee Ann Polytechnic, Temasek Polytechnic, Nanyang Polytechnic and Republic Polytechnic.
<i>Professional Qualification and Other Diploma</i>	This refers to students attending courses leading to the award of professional qualification and other diploma, e.g. ITE diploma, National Institute of Education (NIE) diploma, Singapore Institute of Management (SIM) diploma, LASALLE diploma, Nanyang Academy of Fine Arts (NAFA) diploma, Association of Chartered Certified Accountants (ACCA) Qualification and Chartered Financial Analyst (CFA).
<i>University</i>	This refers to students attending degree or postgraduate courses in universities.

## **Highest Qualification Attained**

Highest qualification attained refers to the highest grade or standard a person has passed or the highest level where a certificate, diploma, or degree is awarded. The Singapore Standard Educational Classification 2010 is used to classify persons by highest qualification attained. Persons aged 15 years and over who are not attending educational institutions as full-time students are classified into the following main categories:

<i>No Qualification</i>	This refers to those who have never attended school, or have primary education but without Primary School Leaving Examination (PSLE) certificate or equivalent, or have Certificate in Basic Education for Skills Training (BEST) 1-3.
<i>Primary</i>	This refers to those who have PSLE or other certificates of equivalent standard, or have Certificate in BEST 4 or at least 3 Employability Skills Systems (ESS) Workplace Literacy and Numeracy (WPLN) Statements of Attainment at Level 1 or 2.
<i>Lower Secondary</i>	This refers to those who have secondary education without a General Certificate of Education (GCE) Normal ('N')/ Ordinary ('O') Level pass or equivalent, or have Certificate in Worker Improvement through Secondary Education (WISE) 1-3, or basic vocational certificates (including ITE Basic Vocational Training), or at least 3 ESS WPLN Statements of Attainment at Level 3 or 4.
<i>Secondary</i>	This refers to those who have at least 1 GCE 'N'/ 'O' Level pass, or have National ITE Certificate (Intermediate) or equivalent (e.g. National Technical Certificate Grade 3, Certificate of Vocational Training), or have ITE Skills Certificate (ISC) or equivalent (e.g. Certificate of Competency, Certificate in Service Skills) or at least 3 ESS WPLN Statements of Attainment at Level 5 and above.
<i>Post-Secondary (Non-Tertiary)</i>	This refers to those who have at least 1 GCE Advanced ('A')/ Higher 2 ('H2') Level pass or other certificates/ qualifications of equivalent standard. It also includes those who have Nitec (e.g. Post Nitec Certificate, Certificate in Office Skills, National Technical Certificate Grade 2, National Certificate in Nursing, Advanced Builder Certificate), or have Higher Nitec (including Certificate in Business Skills, Industrial Technician Certificate and other polytechnic certificates), or Master Nitec or equivalent (e.g. National Technical Certificate Grade 1). This group also includes Workforce Skills Qualifications (WSQ) Certificate/ Higher Certificate/ Advanced Certificate or equivalent, International Baccalaureate/ High School diploma or other advanced certificates (e.g. SIM certificates).
<i>Polytechnic</i>	This refers to those who have polytechnic diploma, or polytechnic advanced diploma (including polytechnic advanced/ post/ specialist/ management/ graduate diploma), or polytechnic post-diploma certificate.

*Professional Qualification and Other Diploma* This refers to those who have qualifications awarded by professional bodies, or NIE diploma, ITE diploma and other diploma qualifications (e.g. SIM diploma, LASALLE diploma, NAFA diploma, WSQ diploma and WSQ specialist diploma).

*University* This refers to those who have bachelor's degree, or postgraduate diploma (including NIE postgraduate diploma), or master's degree, or doctorate. It also includes persons with WSQ graduate certificate and WSQ graduate diploma.

## **Field of Study**

Field of study refers to the principal discipline, branch or subject matter of study that leads to the award of the qualification attained. The Singapore Standard Educational Classification 2010 is used to classify the subject matter of study.

## **ECONOMIC CHARACTERISTICS**

### **Economic Status**

The economic status of a person refers to whether a person was working during the seven days preceding the day he was enumerated. Persons aged 15 years and over are classified as either economically active or economically inactive.

Economically active persons refer to persons who were working and those who were actively looking for work if not working during the reference period.

*Working* A working person is one who during the reference period, worked for pay or profit. It includes those serving National Service, as well as those who were helping in a family business without fixed pay. It also includes all those who had a job or business to return to but were temporarily absent because of illness, injury or other reasons.

*Unemployed* An unemployed person is one who was not working during the reference period but was actively looking for work or planning to start his own business.

Economically inactive persons refer to persons who were not working and not actively looking for work during the reference period.

### **Occupation**

Occupation of a working person refers to the kind of work that the person was doing during the reference period. The Singapore Standard Occupational Classification 2010 is used to classify working persons by occupation.

## **Industry**

Industry refers to the kind of economic activity or the nature of business of the firm, establishment or department in which the person was employed during the reference period. If the person was self-employed, industry refers to the kind of economic activity or nature of business the person was operating. The Singapore Standard Industrial Classification 2010 is used to classify all working persons by industry.

## **Employment Status**

Employment status refers to the status of working persons in relation to their employment. Working persons aged 15 years and over are classified into the following categories:

<i>Employers</i>	These are persons who employ at least one paid worker in their business or trade.
<i>Own Account Workers</i>	These are persons who operate their own business without employing any paid workers in the conduct of their business or trade.
<i>Employees</i>	These are persons who work for employers in return for regular wages or salaries.
<i>Contributing Family Workers</i>	These are persons who assist in the operation of family business without receiving regular wages or salaries.

## **Usual Hours Worked**

This refers to the number of hours that a person usually works in a typical week, regardless of whether he is paid or not. The concept of usual hours of work differs from that of normal hours of work referred to in contractual arrangements. For a person who has just started work during the reference period, usual hours of work refers to the number of hours per week he is expected to work in that job. For a multiple jobholder, it should be aggregated from the hours spent in all the jobs.

## **Gross Monthly Income from Work**

This refers to the total amount of income earned from employment during the full calendar month preceding the date of the interview. For employees, this would include wages or salaries, allowances, overtime, commission, tips and bonuses. It would also include the employee's Central Provident Fund contribution but not the employer's contribution for the employee. For employers and own account workers, it refers to the total receipts from sales and services performed less the business expenses incurred.

## **HOUSEHOLD AND HOUSING CHARACTERISTICS**

### **Household**

A household refers to a group of two or more persons living together in the same house and sharing common food or other arrangements for essential living. It also includes a person living alone or a person living with others but having his own food arrangements. Although persons may be living in the same house, they may not be members of the same household.

### **Resident Household**

A resident household refers to a household headed by a Singapore citizen or permanent resident.

### **Head of Household**

The head of a household is the person generally acknowledged as such by other members of the household. The head is normally the oldest member, the main income earner, the owner-occupier of the house or the person who manages the affairs of the household. Where the household comprises a group of unrelated persons, the head of household refers to the person who manages the affairs of the household, or any person who supplied the information pertaining to other members.

### **Household Structure**

Household structure refers to the classification of a household according to the number of family nuclei and the number of generations in the household.

*One Family Nucleus*                    This refers to a household formed by one of the following, regardless of the number of generations:

- (a) a married couple, with or without never-married child(ren);
- (b) a family consisting of immediate related members, without presence of a married couple e.g. one parent only with never-married child(ren).

*Two Family Nuclei*                    This refers to a household with two family nuclei.

*Three or More Family Nuclei*                    This refers to a household with three or more family nuclei.

*No Family Nucleus*                    This refers to a household formed by a person living alone or living with others but does not constitute any family nucleus. This is further classified into one-person household or household with more than one person.

## **Household Living Arrangement**

Household living arrangement refers to the classification of a household according to the household composition, age and marital status of household head and age group of the youngest child of the head. There are two broad types of households:

*Family-Based Households*      This refers to households with at least one family nucleus.

*Non-Family-Based Households*      This refers to households with no family nucleus.

Within the family-based households, couple-based households refer to those with a married head and spouse in the household. Other family-based households refer to those without a married head and spouse in the household, e.g. lone parent households.

## **Household Size**

Household size refers to the total number of members in the household, including maids.

## **Number of Working Persons in Household**

The number of working persons in the household includes members of the same household who are working. Maids in the household are excluded.

## **Household Income from Work**

Household income from work refers to the sum of income received by working members of the household from employment and business. However, it does not include the income of maids.

## **Household Income from Work Per Household Member**

Household income from work per household member refers to the household income from work divided by the total number of members (household size) in the household. For example, if only one person in a household of four is working, his income is divided by four to derive the average income per household member.

## **Predominant Household Language**

Predominant household language refers to the language or dialect spoken by the majority of household members to other members, excluding maids and unrelated persons.

## **Elderly Living Arrangement**

Elderly persons aged 65 years and over are classified according to their co-residence with their spouse or children. Additional dimension on the economic status of the children is incorporated into the classification.

*With At Least One Working Child* This refers to an elderly person living with his children in the same household, at least one of whom is working.

*With All Non-Working Children* This refers to an elderly person living with his children in the same household, all of whom are not working.

Elderly persons who are not living with their spouse or children are classified according to whether they are living alone or with other elderly persons. Elderly persons living alone refer to those in one-person households, with or without other occupants in the same dwelling unit.

## **Type of Dwelling**

A dwelling refers to a building, part of a building, or a covered space used or intended to be used by one or more persons as living quarters. Each dwelling has its own separate entrance with direct access to a public road or pathway. A dwelling may be a residential building by itself, or a unit in a residential building, or part of a non-residential building such as a shop or factory with space used as living quarters.

Dwellings are broadly classified into the following three categories: Housing and Development Board (HDB) flats, condominiums and private flats, and landed properties.

## **Tenancy**

Tenancy refers to the tenure status of the household with respect to the dwelling in which the household members live. Tenancy is classified into the following three categories:

*Owner* This refers to a household where the head or any other member owns the house.

*Tenant* This refers to a household which rents the dwelling or part of it.

*Others* This refers to a household which occupies a dwelling provided without charge by employers, friends or relatives.

## **GEOGRAPHIC DISTRIBUTION AND TRANSPORT**

### **Planning Areas**

Planning areas refer to areas demarcated in the Urban Redevelopment Authority's Master Plan 2008.

### **Usual Mode of Transport to School or Work**

Usual mode of transport to school or work refers to how a full-time student or a working person usually travels to school or work respectively. Persons who usually walk to school or work and persons who study from home or work at their place of residence are classified in the category "No transport required".

### **Travel Time to School or Work**

Travel time to school or work refers to the total number of minutes that it usually takes a full-time student or working person to get from home to school or to work each day respectively. The travel time includes time spent waiting for public transportation and walking to the bus-stop or MRT station.

## Sample Design and Sampling Variability

### Introduction

The Census of Population 2010 adopted a register-based approach, similar to the Census of Population 2000. Basic population count and characteristics were compiled from administrative sources. Additional information not available from administrative data sources were collected from a sample survey of about 200,000 dwelling units.

### Sample Design and Selection

The sampling frame used for the selection of the sample for Census 2010 is based on the National Database of Dwellings (NDD) maintained by DOS. The NDD is a register of all residential dwelling units in Singapore. As the sample survey of the Census 2010 covered only households in residential dwellings, institutions such as military camps, hostels and hotels were excluded from the frame.

The sample for the Census 2010 was selected based on a stratified design with proportional allocation. The strata were defined based on the planning areas demarcated by the Urban Redevelopment Authority. Each dwelling unit in the frame was first placed into one of the strata based on its planning area. Within each stratum, the units were sorted into dwelling type groupings. A sample was selected using simple random sampling without replacement from each broad dwelling type grouping. The selected samples across the strata were combined to form the required sample of about 200,000 dwelling units.

### Sampling Variability

The precision of estimates derived from the sample survey are affected by sampling errors since the estimates are based on information obtained from a fraction of the population instead of the whole population. Sampling errors refer to the difference between the estimate based on a sample and its ‘true’ population value that would result if the whole population has been surveyed.

The extent of sampling error of an estimate under a particular sample design is assessed by the variability of the estimate across all possible samples under the design. One common measure of this variability is given by the standard error (SE), which is the standard deviation of the sampling distribution of the estimate. Another measure is the relative standard error (RSE), which is obtained by expressing the standard error as a percentage to the estimate. The smaller the RSE, the more precise is the estimate.

## Computation of Sampling Error

The sampling errors of the estimates under the actual sample design used can be derived based on their relationship with those under a simple random sample (SRS) design. The formula for standard error of  $T_Y$  based on simple random sample is:

$$\begin{aligned} \text{SE}(T_Y; \text{SRS}) &= \sqrt{\text{Var}(T_Y; \text{SRS})} \\ &= \sqrt{\text{Var}(N \times P_Y; \text{SRS})} \\ &= N \times \sqrt{\text{Var}(P_Y; \text{SRS})} \\ &= N \times \text{SE}(P_Y; \text{SRS}) \\ &= N \times \sqrt{\frac{N-n}{N-1} \times \frac{P_Y(1-P_Y)}{n}} \end{aligned}$$

where  $T_Y$  is the total number of elements in the population with a given attribute  $Y$

$N$  is the total population count

$n$  is the count of persons covered in the sample

$P_Y$  is the proportion of the total population with a given attribute

The ratio of the variance of the estimate based on the sample design used and that of a simple random sample of the same size is known as the “design effect” (DEFF). This ratio gives the net effect of the various complexities of the design used on the variance relative to a simple random sample design. The square root of the design effect (DEFT) gives the ratio of the standard error of the estimate under the sample design used to that of a simple random sample:

$$\text{DEFT}(T_Y) = \sqrt{\text{DEFF}(T_Y)} = \sqrt{\frac{\text{Var}(T_Y)}{\text{Var}(T_Y; \text{SRS})}} = \frac{\text{SE}(T_Y)}{\text{SE}(T_Y; \text{SRS})}$$

This implies that

$$\begin{aligned} \text{SE}(T_Y) &= \text{DEFT}(T_Y) \times \text{SE}(T_Y; \text{SRS}) \\ &= \text{DEFT}(P_Y) \times \text{SE}(T_Y; \text{SRS}), \quad \text{since } T_Y = N \times P_Y. \end{aligned}$$

## Generalized Sampling Errors Table

From Table A1, the DEFT of the selected attributes ( $T_Y$ ) is about 1. It is impractical to compute and display the sampling error for each and every of the possible estimates such as the total number of elements in the population with a given attribute  $Y$  from the Census 2010. Thus, a generalized sampling errors

table is provided instead as a guide to data users for estimating the errors of any estimates.

Table A2 provides the generalised sampling errors of a selected range of estimates with DEFT value of 1. The smaller the estimate, the larger is the RSE. This implies that sample estimates of a rare characteristic would have high RSEs and users would have to be careful in drawing inferences based on the sample estimates.

Table A1 Sampling Errors and DEFT of  $T_Y$  for Selected Attributes

	Sample Estimate ( $T_Y$ )	Standard Error ( $T_Y$ )	Relative Standard Error ( $T_Y$ )	95% Confidence Interval		DEFT ( $T_Y$ )
				Lower	Upper

**SINGAPORE DEPARTMENT OF STATISTICS  
INFORMATION DISSEMINATION SERVICES**

### **Statistics Singapore Website**

The *Statistics Singapore Website* was launched by the Singapore Department of Statistics (DOS) in January 1995. Internet users can access the website by connecting to:

**<http://www.singstat.gov.sg>**

Key Singapore statistics are available via the following sections:

- Statistics
  - which provides key data on Singapore's economy and population.
- News
  - which covers the Performance of Singapore Economy, the Consumer Price Index, the Wholesale Trade Index, Business Receipts Index for Service Industries, Retail Sales and Catering Trade Indices, Manufacturing Performance, Singapore External Trade, Tourism Sector Performance, Real Estate Information and Employment Situation.
- Publications – Papers & Analyses
  - which provides papers on economic and social topics.
- Themes
  - which presents official statistics compiled by DOS and the Research and Statistics Units in the various ministries and statutory boards according to themes. Within each theme, relevant statistics and related press releases, publications and references are provided.

Statistical resources are available via:

- Publication Catalogue
  - which lists the latest editions of publications released by DOS at <http://www.singstat.gov.sg/pubn/catalog.html>. All softcopy DOS publications are available for free downloading. Statistical tables of DOS publications in Excel format are also available.
- Advance Release Calendar
  - which covers key Singapore economic indicators.

The website also provides a convenient gateway to international statistical websites under the “Statistical Resources” section:

- Guide to International Statistics
  - which covers international databases, classifications and links, and statistical terms and definitions.
- IMF Dissemination Standards Bulletin Board
  - which provides metadata about Singapore's key indicators in the real, fiscal, financial and external sectors, including dissemination practices and information about pre-release access of current indicators.

### **SingStat Express**

*SingStat Express* is a personalised data delivery service which sends the latest press releases, notices of publication, newsletter, occasional and information papers to subscribers via email. SMS alert service is also available to local users. Subscription details are available from the *Statistics Singapore Website* ([www.singstat.gov.sg/express](http://www.singstat.gov.sg/express)).

**SINGAPORE DEPARTMENT OF STATISTICS  
INFORMATION DISSEMINATION SERVICES (*continued*)**

### **Really Simple Syndication**

*Really Simple Syndication (RSS)* is an easy way to stay updated on the latest statistical news released via the *Statistics Singapore Website*. The SingStat RSS feed delivers statistical news highlights and hyperlinks to the source documents whenever the updates are posted. More information is available at <http://www.singstat.gov.sg/svcs/rss.html>.

### **Data on SMS**

*Data on SMS* is a free mobile service for local data users to receive the latest data for key indicators via SMS. Simply key **data** and SMS to **74688** (or SGOVT) for the service. More information is available at <http://www.singstat.gov.sg/svcs/dataonsms.html>.

### **SingStat Time Series (STS) Online System**

The *SingStat Time Series (STS) Online System* is an internet-accessible time series retrieval system. The *STS* includes more than 7,000 historical data series on Singapore society and economy from several domains, including national accounts, balance of payments, investments, finance, labour, prices, business expectations, trade, manufacturing, tourism, demography, health and education.

Besides the usual monthly, quarterly and annual data, *STS* includes also seasonally adjusted data series for key economic indicators providing for a better analysis and understanding of current economic trends. The *STS* also offers:

- Web-based search engine that is easy to use;
- “Bookmark” features that enable users to save and organise links in their personalised portals.

Subscription to *STS* is opened to local and overseas users. More information on *STS* is available via *Statistics Singapore Website*. For enquiries, please contact our Department at **Tel: 6332-7119**.

### **E-survey**

The *E-survey* enables business organisations to complete and submit their survey forms through the internet. Using secured encryption protocols, the *E-survey* ensures that the information transmitted through the net is secured and protected. The system features online helps and validation checks to assist respondents in completing their survey forms. With the *E-survey*, respondents can do away with the tedious paper work and manual tasks of mailing or faxing their survey returns to the Department.

### **Statistical Enquiries and Feedback**

If you have any statistical enquiries or comment or suggestions on our statistical publications and electronic services, you are welcomed to:

- |   |    |  |
|---|----|--|
|  E-mail us | at | <b>info@singstat.gov.sg</b>  |
|  Fax to us | at | <b>(65) 6332-7689</b>  |
|  Call us   | at | <b>1800-3238118* (local callers)</b><br><b>(65) 6332-7738 (overseas callers)</b> |

\* Calls from mobile telephone lines to 1800 local toll free number may be subject to mobile airtime charges as imposed by the relevant mobile service provider.
